

## THE ENVIRONMENT

## 9. Caravans & Camping Sites

### THE PRESENT SITUATION

The Parish has a number of Caravan and Camping Sites, of varying standard. These form an important part of the local economy, and provide accommodation for large numbers of visitors to the area. Provision is made both for touring campers and caravanners and for semi-permanent residential use in static caravans or chalets.

### *Issues*

- Standard of accommodation, landscaping and services.
- Effect of sites on the existing settlements
- Further sites would not receive much support
- Caravans on the skyline

<u>Actions</u>	<u>Stakeholders</u>	<u>Timescale</u>
Monitor proposals for changes to existing sites.	PC, WFDC	Ongoing
Support the upgrading of existing sites where this does not have a detrimental impact on the settlement.	PC, WFDC	Ongoing
Encourage the removal of caravans from prominent skyline locations	PC, WFDC	Ongoing

### Policy Statement

The Parish council will only support the development of further caravan and camping sites in cases where these can be shown to have only the most marginal impact on any aspect of the surrounding area, and where the provision is of the highest possible standard.

The Parish council will support and encourage the modernisation of existing caravan and camping sites, provided that any changes do not have more than a marginal impact on any aspect of the surrounding area.
